Pallet Management for Pallet Managers/Controllers

Wednesday 20th of March; or Wednesday 19th of June

About this workshop

The Victorian Transport Association (VTA), in conjunction with John Stuart from Pallet Loss Prevention, has developed a new program to assist companies to manage pallet responsibilities and associated costs. This workshop will provide people new to the roles of Pallet Manager, Pallet Controller or other hands-on roles with an understanding of the complexity of pallet control and the methods of controlling and influencing the impact of pallet systems within their company.

Topics covered

- An overview of pallet pooling
- The pallet lifecycle - pallet management stages, touch points and cost impacts to the business
- The current environment - key players and typical contract costs
- Managing pallets - pallet strategy and policy
- Pallet control systems
- Role of the pallet controller
- Understanding financial costs and potential cost savings
- Turning common problems into improvements
- Tips for better pallet management
- Putting the workshop concepts into practice. The pallet lifecycle – pallet management stages, touch points and cost impacts to the business

Who should attend

Pallet Managers, Pallet Controllers, administration personnel responsible for pallet control and people looking to take on pallet control in the future.
