Western Roads Upgrade: Duncans Rd Interchange Upcoming works in April, May and June

Dear resident or business operator,

We're continuing to upgrade the Duncans Road Interchange at Werribee to improve access to the Princes Freeway and popular tourist attractions in the Werribee Precinct.

What are we doing?

In April, May and June we'll:

- continue relocating utility services
- continue working on the centre median strip of the Princes Freeway
- begin piling works on the Duncans Road bridge
- begin upgrading the intersection of Duncans Road and K Road and build new retaining walls
- begin upgrading the intersection of Duncans Road and the Melbourne-bound entry ramp
- begin preparatory works for the new Geelong-bound entry ramp
- begin works on the pedestrian crossing of Federation Trail
- re-surface a section of Duncans Road, between Whites Road and Quay Boulevard

When will this happen?

During April, May and June, we'll work **Monday to Friday** between **7am** and **6pm** and **Saturday** between **7am** and **2pm**. We're planning some intermittent night work between **6pm** and **5am**, to minimise disruptions to traffic.

How will this work affect you?

You may notice some noise, dust and vibration. We'll do our best to keep this to a minimum.

You may also notice:

- increased congestion and some lane closures from works on the Duncans Road and K Road intersection
- reduced speed limit on the Princes Freeway in both directions between Sneydes Road and Duncans Road bridges. This will continue for the duration of the works
- reduced lane widths in both directions on the Princes Freeway between Sneydes Road and Duncans Road bridges

Keep up to date and plan your journey
