

Business Planning You Can Implement

A strategic plan should be a living and breathing document. Constantly evolving with changes to the business environment and adapting as strategies and actions are implemented.

This one-day strategy creation workshop is designed to help you create and implement a one-page strategic plan for your business, and is one in our series of four workshops designed to help you build your business.

Delivered by experienced Mindshop facilitator Barry Jenner, the *Business planning you can implement* workshop will take you through the development process, plan creation (refinement of an existing plan) and implementation.

The workshop is a valuable first step as you seek to evolve the way you drive strategy in your business to achieve growth and profit and develop yourself and your key people.

- You will learn problem solving tools including Change Process, Now-Where-How Process, Mind Mapping, Locus of Control, Pareto Analysis and Force Field.
