## **VTA congratulates Coalition on historic election win**

“The Victorian Transport Association (VTA) wishes to congratulate Prime Minister Scott Morrison and his Government on their historic success at Saturday’s Federal Election.

“While votes are still being counted and some seats yet to be decided, it is clear the Liberal National Coalition will be able to form government, either in minority with the support of independent MPs, or as a majority in their own right.

“The VTA enjoys established and productive relationships with the Liberal National Coalition which are instrumental in our ability to shape transport policy, regulation and legislation that facilitates more productive and efficient supply chains for the betterment of our members and our industry.

“The VTA also acknowledges the election campaign run by the Labor opposition, and thanks them for being prepared to engage positively with our industry over the last parliamentary term.

“It is essential for us to advocate for our members and the transport industry across party lines, and we will continue to work with all sides of politics to get the best outcomes for our members and our industry.

“The VTA looks forward to working with the re-elected Morrison Government and all members of the 46th Parliament to deal with the issues that confront Australia’s freight industry.”
