Many companies contract out components of their business where they lack expertise or a defined knowledgebase, or simply because outsourcing can sometimes achieve a better financial result. But just because your company may contract work to another company, this doesn't mean that you hand over all of your responsibilities and obligations under the National Heavy Vehicle Law. You still need to have policies and procedures, including a formal audit regime, to ensure that the Sub-Contractor is performing the work legally, safely and compliantly.

What the Sub-Contractor Management workshop will cover:

- The National Heavy Vehicle Law
- Roles and Responsibilities
- CoR for Contracts (what is needed in Sub-Contractor Contracts)
- What Policies and Procedures should Sub Contractors have in place?
- Audit Regimes
- The Road Safety Remuneration Tribunal (and current Orders)
- Next steps.

Workshop outcomes:

- You will leave with a clear understanding of the requirements of Sub-Contractor Management.
- You will leave with a clear understanding of specific roles and contract criteria.
- You will leave with the skills and knowledge to assess and audit your Sub-Contractors.

Who should attend?

- Business Owners
- Contract Managers
- Transport Managers
- Transport Supervisors
- Sub-Contractors

About the presenter:
