

# CABIN CLEANING

**Wash hands or sanitise prior to entering the vehicle.**

**Disinfect vehicle's outside door handle prior to entering, then inner door handle.**

**Spray or wipe all touchpoints e.g. steering wheel, screens, seat belt, hand brake, gears, dials.**

**Allow disinfectant to sit for up to 10 minutes and air out the vehicle.**

**Use rubber gloves if no disinfectant or hand sanitiser available.**

**Remove used gloves from the wrist, dispose of immediately. Wash hands with soap & water.**

**Do not touch your face at any time while disinfecting the cabin.**

**Cover your coughs and sneezes with your elbow or tissue.**

**Seek medical assistance if you display any symptoms.**
