

Unfortunately as we are all aware, Melbourne metro is now in stage 3 lock down.

We have had a number of enquiries from our existing Epicleanse customers to supply face masks. As a result of these requests and again our own needs in transport we have decided to react accordingly.

As a transport business, we have now gone to a further level of protection for our staff where we are asking all of our front line drivers to wear face masks when performing pick up and deliveries for our customers.

We have been able to source face masks manufactured right here in Victoria. **Australian made!!!**

These face masks are Level 1 grade. which is suitable for general practitioners as well. These come as 6 boxes (50 masks per box) per carton. Our price for this wonderful Australian made product is \$59.95 per box or \$359.70 per carton including gst and credit card fees.

We would like to offer this new product to every existing Epicleanse customer for \$49.95 per box or \$299.70 per carton. This offer is valid until the end of July. On check out, please enter the promotion code MASK.

Should you wish to purchase our face masks, please click on the below link and this will take you straight to our web page for this product. All the specifications from the manufacturer are listed on this link.

If there is anything you need no matter how crazy it may sound please feel free to touch base with us. We recently designed, manufactured and installed driver safety screens for all of the Mt Buller taxi's and turned this project around in under 36 hours from start to installation.

As you can see from our web site now, the range has continued to expand and we will continue to do so based on our customers requests.

Thank you again for you ongoing support.
