## **Registration opens for VTA State Conference 2024**

The Victorian Transport Association is now accepting registrations for State Conference 2024, to be held from Sunday 17 – Tuesday 19 March at Silverwater Resort, Phillip Island.

“The State Conference is the VTA’s premier professional development event, and I invite members, associate members, and other industry stakeholders to join us for three days of learning, networking and social engagement with fellow members, operators, and suppliers,” said VTA CEO Peter Anderson.

“The theme of our Conference this year is ***Future Freight Landscapes***. Technology, artificial intelligence, and cyber-security are just a handful of issues that are upending economies, communities, and industries as we know it. And the transport industry isn’t exempt.

“We invite you to explore what you don’t know but should know about transport, with the VTA assembling experts from industry, regulators, academia, and government, to challenge our thinking and inform our discussions,” Anderson said.

Throughout the Conference, formal sessions will be interspersed with a range of networking and hospitality sessions, providing delegates with opportunities to socialise and gain new contacts from across the industry. A trade exhibition during the Conference will feature new products and innovations from a range of industry suppliers, and we anticipate having the latest associated equipment from our domestic and international original equipment manufacturers.

“I look forward to sharing our provisional program over the coming weeks; delegates can be assured the calibre of presenters will be exceptional, in keeping with our reputation for providing a relevant, timely and content-rich State Conference,” Anderson said.

A range of packages and price-points are available to suit the busy schedules of members, associate members, and other delegates and these can be viewed at [www.vta.com.au](http://www.vta.com.au)

State Conference 2024 is proudly sponsored by industry super fund TWUSUPER, who are very generous and long-standing supporters of this and other VTA events. If you have any questions or queries about registration, please contact VTA Membership Services Coordinator Armielyn Porsovigan on 03 9646 8590 or [armielyn@vta.com.au](mailto:armielyn@vta.com.au)

**Ends...**
